

ASSURANCE® 54-5730
DOUBLE DIPPED INSULATED GLOVES
PRODUCT INFORMATION

ASSURANCE® 54-5730
 S-2XL

ANSI/ISEA 105

EN511

121

**SUITABLE FOR
 EXTREMELY COLD AND
 WET ENVIRONMENTS**

These double coated and insulated work gloves are engineered to protect hands in cold, wet/oily environments have been tested to remain flexible in temperatures as low as -50°C.

The polyurethane coating features a rough finish for improved grip and abrasion resistance on wet, slick and rugged surfaces.

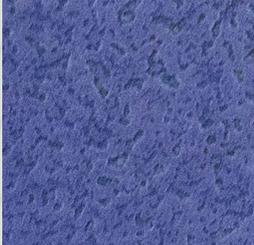

Ideal Industries

- ▶ Construction
 - ▶ Mining
 - ▶ Petrochemical
 - ▶ De-Energized Utility
 - ▶ Fisheries
- AND MORE..

ENGINEERED TO KEEP HANDS WARM, DRY AND PROTECTED

	FEATURE	BENEFIT
	 Tested to -50°C	Gloves remain flexible and don't become stiff in extremely cold conditions
	 Double Dipped Polyurethane Coating	Resists liquids and oils from penetrating, yet remains breathable to alleviate sweaty hands
	 Rough Coating Finish	Enhances grip on wet and slick surfaces while remaining durable against abrasive tools and materials
	 Seamless Knit Acrylic Liner	Keeps hands warm and comfortable in extremely cold conditions
	 Silicone & Latex Free	For smudge free handling and a reduced chance of an allergic skin reaction
