Albatros®

Trento CTX MID O2 WR HRO SRC COA.TEX-Membrane, Heat Resistant, Slip Resistant, Water Resistant, Boots

- **SLIP RESISTANT XTS TRAIL SOLE** - The easy-to-clean rubber outsole ensures perfect contact with the ground. It is non-slip and abrasion-proof and heat-resistant up to 300°C (HRO). The specially designed cleat profile and the wide flex grooves guarantee optimal flexion, optimize the water-displacing properties (windshield wiper effect) and provide a secure hold on a wide variety of surfaces.
- **IMPULSE.FOAM® MIDSOLE** - The innovative IMPULSE.FOAM® midsole reacts to each of your steps with an energy impulse. IMPULSE.FOAM® offers everything: Maximum cushioning with optimum energy return as well as excellent stability and lasting comfort.
- **COA.TEX® MEMBRANE** - The durable, water resistant and windproof high-tech membrane is particularly breathable and protects the foot from waterlogging through a microporous fabric structure. The membrane transports sweat and moisture to the outside. What remains is a pleasantly dry and comfortable foot feeling.
- **EN ISO 20347:2012** - All models are certified according to EN ISO 20347:2012 and have, among others, the following features: closed heel area, antistatic and energy absorption capacity in the heel area. Shoes of class O2 additionally have a water-resistant upper.
