Care Instructions

PUMA® Safety

Yosemite Blk St CTX MID O2 WR CI HI HRO SRC Cold Isolation, COA.TEX-Membrane, Heat Isolation, Heat Resistant, Slip Resistant, Water Resistant, Safety Shoes

- RUBBER OUTSOLE It is obvious that the heavy duty pattern of this hard-wearing, up to 300°C heat resistant HRO rubber outsole has been designed for optimum safety and performance, even on loose grounds
- PU MIDSOLE The directly injected lightweight PU midsole provides shock absorption across the whole foot.
- SCUFF CAP Extra high scuff cap for wearers who kneel a lot during their work.
- EVERCUSHION® BA+ This anatomically shaped, moisture regulating footbed has a non-slippery surface. Two layers of foamed polyurethane in different densities guarantee an active cushioning. The heel and ball elevations as well as the support of the longitudinal arch improve the foot's hold. Furthermore they ensure a natural position of the foot, a relief of pressure and muscle stimulation during walking.
